E-LEN: A network of e-learning centres

A project under the Socrates Programme

ABOUT

E-LEN is a European network of institutions with e-learning expertise. The network was established to share and develop information and design patterns regarding e-learning. An important activity of the network is the dissemination of design patterns to interested parties.

E-LEARNING DESIGN PATTERNS

Design patterns provide a structure for integrating the analysis and solution of a problem in a way that is sensitive to context and informed by theory and evidence. A pattern suggests rather than prescribes a solution. Solutions are intentionally incomplete: they offer guidance but require embellishment.
